The proportion of coin, bullion, and notes to total liabilities is at present 19·7 per cent.

Gold Production.—The gold yield during June quarter, 1921, was 14,430 oz. fine, valued at £61,297, and showed an increase of 6,293 oz. fine, and £26,735 in value, compared with June quarter, 1920. The value of the gold produced during the year ended 31st December, 1920, was £207,746.

Land Selections.—In the June quarter, 1921, there were 449 applications for 150,854 acres for original holdings under the Crown Lands Acts; and 349,305 acres, representing 1,077 blocks, were set apart for original holdings, which include areas for returned soldiers. During the year ended 30th June, 1921, the number of applications was 2,020, and the area applied for 1,165,868 acres. The lands set apart for original holdings in the year ended 30th June, 1921, were 906,325 acres, representing 2,736 blocks.

Retail Prices, Sydney.—From the information collected as to average retail prices of food in Sydney, it appears that in June, 1921, the prices of meat were 35·2 per cent. higher than in July, 1914; other food and groceries were 71·9 per cent. higher; and the prices for the two combined were 62·4 per cent. higher.

Prices of meat were 6·9 per cent. lower than in May; other food and groceries, 0·1 per cent. higher; and the two combined were 1·5 per cent. lower.

Compared with the corresponding month (June) of 1920, meat was 25·3 per cent. cheaper; other food and groceries were 11·8 per cent. cheaper; and the two combined were 15·1 per cent. cheaper.

During the last nine months there has been a steady decline in prices, which are now approximately 19 per cent. lower than in September, 1920, when they were at their maximum.

The commodities for which the price levels are computed are those in every day consumption.

Wholesale Prices.—During the June quarter the general level of wholesale prices dropped by 9 per cent., the decrease in April 4·3 per cent., and in May 4 per cent., being greater than in any month since the general decline commencing in August, 1920, except in October, when it dropped by 7·3 per cent., and in December by 4·2 per cent. The variation was very slight in June, when the decline was less than 1 per cent. Prices of meat were the main factor in the movement during the quarter; they fell by 19·5 per cent. in April, and by 10·5 per cent. in May, when the index number of the group was lower than in any month since December, 1914; in June it rose by 2·8 per cent., the total decrease during the three months being 25 per cent. There was a decrease in the index numbers of all other groups throughout the quarter, though building materials and chemicals showed a tendency to rise in May and June. The fall in prices was greatest in the group, wool, cotton, &c., owing mainly to a decline in cotton, and in the dairy produce group owing to decreases in butter and bacon. On the other hand, groceries and metals and coal showed very slight variation.

Of the 100 commodities used in forming the index numbers, the prices of 54 commodities remained unchanged during the quarter, 9 articles increased, 37 became cheaper, the decrease being substantial in the case of potatoes, hay, maize, rice, as well as in cotton, bacon, and butter.

The general trend of prices in the June quarter, 1921, was in the opposite direction to the upward movement during the corresponding quarter of the previous year, when the group, wool, cotton, &c., was the only group which declined; however, three other groups, agricultural produce, groceries, and chemicals showed signs of weakening towards the end of the quarter in 1920.

New Buildings—Metropolis.—According to returns supplied by the several Town Clerks, the number of new buildings erected in the Metropolitan area during the six months January to June, 1921, numbered 2,436, as compared with 4,310 during the six months January to June, 1920.

Country Municipalities.—Table No. 64 shows that during the six months ended 30th June, 1921, permission was granted in country Municipalities to erect 1,198 new buildings of the value of £762,365, as compared with 1899, of a value of £1,294,395 in the corresponding period of 1920.

Meteorology.—Heavy rains and rough weather conditions on the seaboard were recorded in April.

During May phenomenally heavy downpours occurred on the North Coast, where floods did much damage. Heavy rain fell also on the Central and South Coast districts. During the last days of May there were splendid general rains which continued into June. On the 26th June, southerly gales and heavy seas off Cape Hawke caused the loss of the steamers "Fitzroy" and "Our Jack," with nearly all lives. The monthly rainfall was above the average over the greater part of the State. Frosts were recorded and some fogs were experienced, and snow fell on the Southern Tableland.

Vital Statistics—June quarter, 1921—New South Wales.—The births registered in June quarter numbered 13,361, equivalent to an annual rate of 26·11 per 1,000 of population; and the deaths, 4,864, which is equivalent to 9·50 per 1,000 of population. The annual rate per 1,000 population of the 4,969 marriages registered was 9·71. Compared with the average of the June quarter of the preceding five years, the marriage-rate was 16 per cent. higher, while the death-rate was 17 per cent., and the birth-rate 1 per cent. lower.

Sydney and Suburbs.—The births registered in June quarter numbered 5,438, equivalent to a rate of 25·38 per 1,000 of population per annum; of the total, 2,794 were males and 2,644 females. The rate is slightly above the average of June quarter of the previous five years.

The deaths in June quarter numbered 2,105, namely, 1,134 males and 971 females. The mortality rate of 9·82 per 1,000 of population per annum is 24 per cent. below the quinquennial rate for the June quarter. The deaths were below the average in all age-groups.

The infantile mortality (deaths under 1 year) was 58·1 per 1,000 births, and is 13 per cent. below the average for the June quarter of the previous five years.

Labour Conditions in June Quarter, 1921.—The following particulars in regard to Employment and Dislocations have been taken from reports of the Department of Labour and Industry:—

Employment.—The Director of the State Labour Exchanges reports that in the metropolitan district during June there were about 7,500 persons out of work in the country districts, and unemployment was prevalent. The persons affected by unemployment included workers in the building, engineering, and shipbuilding trades, waterside workers, and clerks; the clothing trades were dull, but in the boot factories machinists were in demand.

During the June quarter, 5,875 positions for men and 2,118 for women were made available by employers through the agency of the State Labour Exchanges, and 5,615 men and 1,676 women were placed in positions; in March quarter, 11,067 positions were made available, and 9,566 persons were placed in positions.

Dislocations.—Dislocations of industry, owing to disputes, were less serious in the June quarter than in the previous quarter, though a greater number of employees were involved. In June quarter, 54,504 employees were involved, with the loss of 184,780 working days; in the previous quarter the totals were 47,616 and 261,828 respectively.

Increases in Wages.—The principal increases in wages during June quarter were as follows:—To carters (general and retail shops), 5s. 6d. per week; motor-wagon drivers, 5s. per week; female assistants (tobacconist shops), female warehouse assistants (other than soft goods and drug warehouses), and wood and coal carters, 4s. per week; masons, stonecutters, and quarrymen, 3½d. per hour, and builders' labourers, 2½d. per hour.

* From 25th March, 1918, to 31st January, 1919, the official f.o.b. price of wheat for flour for home consumption was 4s. 10 $\frac{1}{2}$ d. per bushel. This included 3 $\frac{1}{2}$ d. handling and commission charges; but city millers, handling grain for their own mills obtained it for 1 $\frac{1}{2}$ d. per bushel less than the f.o.b. price, so that the price of wheat for flour for home consumption was 4s. 9d. per bushel (on trucks), Sydney. On 1st February 1919, the price was raised to 5s. per bushel, and to 5s. 6d. on 1st October, 1919, to 6s. 6d. on 3rd January, 1920, to 7s. 8d. on 31st January, and to 8s. 10d. on 12th February, 1920, for old seasons and imported wheat. Gristing of new season's wheat, 1920-21, began about 15th November, 1920 the price at the mill being 9s. per bushel.
